

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1 **Claim 1** (currently amended) A radio terminal device
2 comprising:
3 a printed board having a front surface and a rear
4 surface;
5 a resin housing covering the rear surface of the printed
6 board;
7 a metal housing covering the front surface of the printed
8 board; and
9 an antenna disposed on a side of the rear surface of the
10 printed board,
11 wherein a part of the printed board is accommodated in
12 the resin housing; and
13 an a remaining part of the printed board is accommodated
14 in the metal housing.

1 **Claim 2** (original) The radio terminal device according to
2 claim 1, wherein the resin housing and the metal housing are
3 joined with each other by a curved line from a viewpoint of
4 the side of the radio terminal device.

1 **Claim 3** (original) The radio terminal device according to
2 claim 1, wherein the printed board and the metal housing are
3 connected with each other electrically.

1 **Claim 4** (currently amended) The radio terminal device
2 according to claim 1, wherein the antenna is disposed near an
3 end portion in the ~~remaining~~ part of the printed board.

1 **Claim 5** (previously added) A radio terminal device:
2 a printed board;
3 an antenna disposed on a rear surface side of said
4 printed board; and
5 a housing for accommodating said printed board and said
6 antenna, said housing including a metal housing so disposed as
7 to cover a front surface of the printed board and a resin
8 housing so disposed as to cover a rear surface of the print
9 board,
10 wherein in a vicinity of said antenna, at least a part of
11 the rear surface side of said printed board is accommodated in
12 the resin housing.

1 **Claim 6** (previously added) The radio terminal device
2 according to claim 5, wherein the resin housing and the metal
3 housing are joined with each other by a curved line from a
4 viewpoint of the side of the radio terminal device.

1 **Claim 7** (previously added) The radio terminal device
2 according to claim 5, wherein the printed board and the metal
3 housing are connected with each other electrically.

Appl. No. 09/528,126
Amdt. Dated September 19, 2003
Reply to Office action of 07/02/2003

1 **Claim 8** (currently amended) The radio terminal device
2 according to claim 5, wherein the antenna is disposed near an
3 end portion in the ~~remaining~~ part of the printed board.
